Marine scientists now know the secrets of the seahorses. Many people don't have much knowledge about this kind of fish, so they did many research on their lives and genetic maps. The research showed that seahorses are different from other marine wildlife. They have no teeth. Male seahorses carry babies and give birth instead of females. Seahorses do not swim sideways, but they swim up and down.

From the passage, choose "TRUE" or "FALSE".

39.1 All scientists did research about seahorses.	TRUE	FALSE
39.2 A baby seahorse is born from a female seahorse.	TRUE	FALSE
39.3 Genetic maps can tell how seahorses are different from other fish.	TRUE	FALSE
39.4 Other fish swim the same as seahorses.	TRUE	FALSE

40.

Researchers spent 12 years studying the lifestyles of 3,500 men and women. Everyone was over 50 years old at the start of the research. The study found that people who read for at least half an hour a day are 17 percent less likely to die than people who did not read. The result suggests that reading can keep our mind active and lowers our stress.

From the passage, choose "TRUE" or "FALSE".

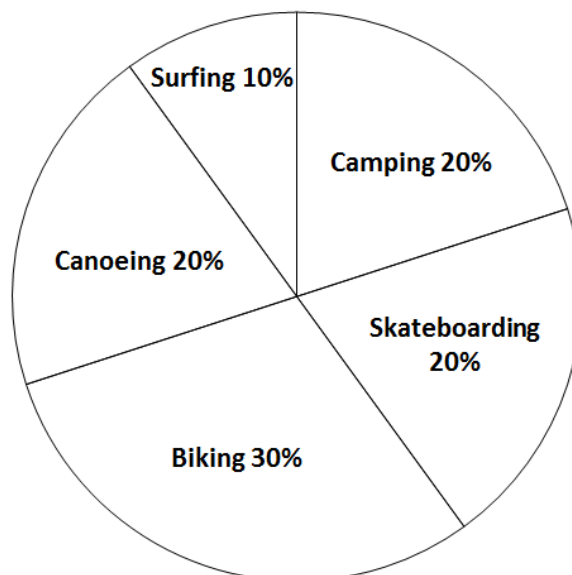

40.1 People who read more than 40 minutes a day should live longer than these who don't.	TRUE	FALSE
40.2 The researchers studied 3,500 people who are 12-50 years old.	TRUE	FALSE
